She is the author of the plays Sugar Syndrome, The Effect, ENRON and A Very Expensive Poison. She herself illustrated more than one book, but each of them prefaced a touching poem. The book also includes her stories about people, living and stillborn, with detailed drawings and a caption for each story. Living on the same planet with people is as wild and scary as living on a desert island. And even worse, if at this fatal moment there are completely strangers nearby who do not understand your fear. Therefore, in these stories there is not a single positive character - neither an angel, nor a demon, nor a saint. Only a person who feels alive while breathing. And each story tells about love, which is able to heal and be healed. And also about the fact that in life it is never too late to start all over again. David White is the author of two of the most famous biographies in English literature: Jack the Ripper and serial killer Charles Manson. Novels by David White are a real encyclopedia of American life. The collection of short stories can be read on its own or as a set with short stories and novels. ISBN 978-5-227-02525-3 Lucy Prebble and Miriam Gillinson worked on this novel for a year and a half. Their main theme was how parents influence children and what role parents, especially mothers, play in this. The artistic style, the manner of writing and the figurative world created by the authors are of interest to everyone who is interested in modern literature. Buy a book on the site "Book on Demand" Fiction novels released in 2015 It's hard to imagine that you can "jump" into the past, to 1941, but in the "Alternative History" series of the AST publishing house, a series of books is published that can take the reader to the very beginning of World War II. When the Civil War was still going on in Germany, and the Soviet Union waged an exhausting and bloody war against the fascist coalition. Many of the events described in the books will be repeated years later when the Third Reich is defeated. The book "Journey to the Past" is able to take the reader four years later, when the Great Patriotic War ended in the USSR. The Great Patriotic War is a symbol of heroism and selflessness, loyalty and devotion, terrible pain and rage. Above all, this book is a journey through time. Five years ago, the hero of the books Artur Avallonovich Gushchin was a junior lieutenant of the USSR Air Force. And then a quarter of a century has passed, and he is already a lieutenant colonel - a Hero of the Soviet Union. Twice Hero of the Soviet Union, holder of many military orders and medals. No less exciting is the reading of the novel "Wounded Leave" by Polina Molchanova. It is written in the genre of alternative history. The hero of the books, Andrey Volotovskiy, is a lieutenant colonel of the guard, a participant in three wars, and was awarded many military awards. It seems that there is a long, very long service ahead. But in fact, this is not the case, he will soon be transferred to the Group of Inspectors General of the Main Directorate of Personnel of the General Staff of the Armed Forces. There are already two defeats behind him, but this did not break his character, did not throw him under him. And now Andrei Voltovskiy, already in the rank of major, is again in the army. When you and I wish to be reincarnated from Alexander III to Alexander Stalin and see what happens, we will read Viktor Astafiev's novel "Cursed and Murdered"
